

香 港 大 學

THE UNIVERSITY OF HONG KONG

Dear all postgraduate students,

Wish you enjoy your time at the University of Hong Kong!

HKU has always been the global leading university and still on her path to pursue more and more competence. Following the strategy of delivering impact through internationalization, innovation and interdisciplinary, we, the postgraduate students act as irreplaceable roles not only when studying on campus, but also exerting influence beyond graduation. No matter where you are from, what language you speak, which field you focus on, I believe you must be able to find your unique sense of identity after immersing yourselves in the HKU culture and engaging with various HKU communities.

More than 12,000 postgraduate students here are working really hard to accomplish taught or research degrees in various areas. HKU is always protecting every member's freedom of thinking and equal opportunities. Many departments and units take care of one or more aspects of your life, be it curricular, co-curricular or extra-curricular. Postgraduate Student Association (PGSA), as the official representative body for postgraduate students, tries to further the knowledge gaining process, enrich the campus life and also encourage students to involve in social charitable activities. In students' most beautiful age, we are always sparing our utmost effort to make their HKU period memorable and valuable.

Treasuring the Alumni Network, PGSA not only focuses on students on campus. Every year, we pay our persistent attention to connecting and serving potential HKU freshers as well as the alumni. Orientations and reunions help the member network to be sustainable. The sense of unity pushes the platform to be more solid and strengthened, hence more rewarding for the members.

We are open, to advice, to novel ideas, and to changes. Feel free to talk to our ExCo members to express your thoughts on the Association's development. What's again, wish you a pleasant journey here.

Runzhi Zhang

President (Executive Committee 2020-2021)

Postgraduate Student Association
